

Achieving FDA Compliance Automatically

Adlib provided the precise rendering and automation tools to deliver FDA-compliant documents from a diverse variety of source materials in a structured, consistent manner.

THE CHALLENGE

A developer of products that improve food and health needed to provide documents, allergy information, and health information in PDF format whenever food product ingredients changed to satisfy compliance requirements.

They were faced with a number of tough challenges. This organization needed to:

- Improve the current manual and slow process of document conversion
- Handle a large volume of documents on a regular basis
- Convert different versions of Microsoft Word documents in a consistent manner
- Demonstrate compliance in a straightforward way

THE RESULT

Adlib is known for high-fidelity rendering and document enhancement tools. Organizations that need to meet FDA guidelines know that exactness and consistency are essential. Adlib's solutions offer the precise rendering and automation tools to deliver compliant documents from a diverse variety of source materials in a structured, predictable manner.

By using Adlib, this life sciences organization achieved a number of benefits:

- Demonstration of FDA compliance with a reduction of risk for non-compliance
- Implementation of an automated and accurate PDF rendering process
- Capability to merge multiple documents into a single PDF with date stamps
- An increase in productivity by streamlining processes

Advanced Rendering enabled this life sciences organization to automatically demonstrate FDA compliance while streamlining the conversion of a high volume of documents.

WHAT IS ADVANCED RENDERING?

Advanced Rendering technology takes basic document-to-PDF conversion to a higher level by integrating into the most commonly-used Enterprise Content Management (ECM) systems and automating the conversion of content from multiple sources into more manageable and usable formats to enhance documents at each of the 4 stages of the document lifecycle: capture, manage, archive and deliver.

Adlib PDF Enterprise is the next-generation of Advanced Rendering technology that is ideal for high-volume environments where accurate, scalable and highly-available document-to-PDF conversion and transformation services are required across the enterprise.
